

This web application allows large regional operations to visually inspect services we provide (Especially landscaping) without having to travel to each facility. Facility views of our service are updated either monthly or as new service is provided.

Monthly 30-60 sec. surveys assure all ongoing quality service goals are being met in all areas of responsibility. It also helps us to customize our service in an ongoing basis to keep us ahead of problems dramatically reducing or eliminating client complaints & issues.

In these hard financial times RSS has designed a program called Alacarte Cleaning Service. ACS allows us to cut anywhere from 25% to as much as 50% from the typical cleaning contract. Additionally you contract allows for adjustments and changes that can fluctuate over the term of you contract, if needed.

SCRUB&BUFF

This new wax floor process can save 50% on normal maintenance. Instead of stripping a floor and reapplying 5 + coats of wax, only the top coat is processed, removing any foreign debris & reapplied while high speed buffing to a harder mirror finish & only rarely needing any new wax applied.

Mission Statement:

“Our mission is to enhance the value chain system by exceeding the needs of the client.”

-Mark Richardson, CEO

As a certified Touchstone representative we offer customized programs, applications (Some outlined here), designated contacts, evaluation checks & balances that assure our clients a continuous optimal service they require for as long as they use our services and thereby satisfy our mission goal.

T.A.C.S.

Touchtone Automated Communication System™

This automated system eliminates cleaning staff “no shows”, provides verifiable cleaning time and frequency record as well as providing a direct communication link between all RSS on-site facility staff and the client.
